

Planting the seeds of success for thousands of Australian farmers, Woods Seeds varieties are bred to maximise crop yield and nutritional values while demonstrating peak durability and pest resistance. Available year-round through good rural merchandise outlets (with peak demand between April and June), our range includes the latest and most popular varieties of wheat, barley, chickpeas, faba beans, mung beans and oats. All seed is available in 25kg, 1 tonne or bulk packaging, and we offer a range of fungicide, insecticide and fertiliser treatments to help boost your chance of crop success.

## Mung Beans

Mung beans will again be available in good supply for the 2019 season. Seed will be available in either 25kg or 1T bags. Varieties available this season will be Crystal & Jade AU. Woods Seeds will also be able to organise delivery of seed direct to reseller stores. **Woods Grain are offering hectare contracts for the upcoming mung bean season, please contact Bruce Woods on 0427 621 718 or [enquiries@woodsgroup.com.au](mailto:enquiries@woodsgroup.com.au) to get up to date prices and contract information for your growers.**
