

Pig Creep Crumble

Product Description:

Woods Pig Creep Crumble is a complete stock feed suitable for suckling piglets over 10 days of age and weaned piglets up to 7 days post weaning. It is designed to help piglets through the transition from a liquid milk based diet prior to weaning, to a dry grain and protein meal based diet after weaning.

This crumble is composed of milled grains, protein meals (soybean meal, meat meal, fish meal, blood meal, skim milk and/or whey powder), food by-products (biscuit meal, etc.), macro-minerals, trace minerals and fat soluble and B complex vitamins.

Feeding Guidelines:

Supply **Woods Pig Creep Crumble** free access in trays or tube self-feeders from day 14 of age until weaning. After weaning, for day 1 and 2, mix the crumble with water to make a porridge/gruel and supply in small amounts in open troughs 3-4 times per day to encourage all piglets to have a good feed. Continue supplying dry crumble for 7 to 10 days post weaning.

Ensure that piglets have sufficient feeder space and clean drinking water at all times to maximise feed intake.

This product contains restricted animal material - Do not feed to cattle, sheep, goats, deer or other ruminants.

Typical Result* - As Fed Basis

Analytical Data	Result
Crude Protein	21.89%
