

Product Description:

Woods Pig Lac Sow Mash/Pellet is a complete stock feed suitable for lactating gilts and sows from farrowing until weaning. It is designed to maximise milk output while minimising body condition loss.

This pellet is composed of milled grains, protein meals (soybean meal, canola meal, cottonseed meal, meat meal and/or blood meal), food by-products (biscuit meal, millrun, fibre sources, etc.), macro-minerals, trace minerals and fat soluble and B complex vitamins.

Feeding Guidelines:

Supply **Woods Pig Lac Sow Mash/Pellet** at least 3 times per day to maximise feed intake from the second week after farrowing until weaning. In the first week, gradually increase daily total feed to increase sow's appetite.

Ensure that finishing pigs have feed supplied free access in sufficient self-feeders to maximise feed intake. Ensure lactating gilts and sows have access to clean drinking water at all times.

This product contains Restricted Animal Material. Do not feed to cattle, sheep, goats or other ruminants.

Typical Result* - As Fed Basis

Analytical Data	Result
